BRINGING THE **NEXT-GEN** NFT ECOSYSTEM

Introducing Skycraft, an avant-garde NFT project merging artistic expression with blockchain innovation. Traverse our collection of NFTs, each a portal to unparalleled opportunities in the crypto realm. From the Genesis Miners' Vault providing exclusive access to Bitcoin mining, to the Quantum Trade X Canvas fusing art with automated trading, and the Launchpad Odyssey Passage leading to early blockchain venture investments, Skycraft NFTs redefine participation. Immerse yourself in real-life crypto events through the Realms of Immersion Pavilion, and nurture shared prosperity with Unity Treasury Nexus. Illuminate trading with Liquidity Luminary Sanctuary, and secure perpetual earnings with Eternal Royalty Resonance NFTs. Embrace the convergence of NFTs and blockchain at Skycraft Nexus, where exploration knows no bounds.

MARKET VALIDATION

Unleashing Digital Ownership Revolution

The NFT market is booming, growing at an impressive 18.56%. By the end of 2027, it's projected to surpass a valuation of 3.5 billion. This surge highlights NFTs' increasing importance as a digital asset class, revolutionizing ownership and authenticity across art, collectibles, gaming, and more.

ROADMAP

In this section, we provide a glimpse into the exciting stages of growth and development that lie ahead for our project. With a strategic approach, innovation, and unwavering dedication, we're committed to navigating each phase of our roadmap, creating value, and realizing our vision. Join us as we embark on this exciting trajectory of progress and evolution.

FOUNDATION AND PREPARATION

Phase 1 A Phase 1 B

RESEARCH AND CONCEPTUALIZATION:

Thoroughly analyze market trends, identify gaps, and refine the project concept to ensure alignment with investor expectations.

TEAM BUILDING

Assemble a diverse team of experts in blockchain, development, marketing, and finance to lay the groundwork for a solid foundation.

DEVELOPMENT AND LAUNCH

Phase 2 A Phase 2 B

PLATFORM DEVELOPMENT

Execute the technical implementation of the project, from blockchain integration to user interface design, ensuring a seamless user experience.

STRATEGIC MARKETING

Launch targeted marketing campaigns to build anticipation and awareness, creating a buzz around the project's unique value proposition.

GROWTH AND EXPANSION

Phase 3 A Phase 3 B

COMMUNITY ENGAGEMENT

Foster an engaged user community through interactive social media strategies, forums, and regular updates.

UTILITY ENHANCEMENT

Continuously innovate and enhance the platform's utilities based on user feedback, driving sustained user engagement.

SUSTAINABILITY AND LONG-TERM SUCCESS

Phase 4 A Phase 4 B

ECOSYSTEM EXPANSION

Forge partnerships with complementary projects, enabling cross-promotion and broadening the project's reach.

INSTITUTIONAL COLLABORATION

Collaborate with institutional players to integrate the project's services into their operations, expanding its influence and adoption.

TOTAL SUPPLY AND MINT DETAILS

The launch of **9,696 NFTs** on the Polygon Blockchain will unfold in four distinct phases. The initial phase introduces **2,424 NFTs**, wherein **2,000 NFTs** are secured for private rounds, leaving **424 NFTs** available for minting.

Our overarching goal is ambitious: to commence on a robust note by procuring more than **1,000 ASICs** through a comprehensive sell-out. This strategic move positions us to mine a substantial volume of BTC, fostering a dependable revenue stream that bolsters our community's prosperity.

PHASE WISE PRICING

Phase 1	Phase 2	Phase 3	Phase 4	Total Revenue
300 \$	400 \$	500 \$	600 \$	\$ 4,363,200
Phase 1	Phase 2	Phase 3	Phase 4	Total NFTs
2424	2424	2424	2424	9,696

In a meticulously crafted approach, we are thrilled to unveil our NFT collection through four distinctive phases, each offered at varying prices. This strategic progression ensures that every enthusiast has the opportunity to become part of our groundbreaking ecosystem. With each phase, our collection evolves, introducing new layers of innovation, value, and opportunity.

As we journey through these phases, we are committed to not only shaping the future of NFTs but also ensuring that inclusivity and accessibility remain at the core of our vision. Prepare to embark on a remarkable journey, where each phase brings you closer to the heart of our transformative NFT universe.

NFT UTILITIES

Embarking on an exciting journey, the Skycraft Miners NFT project unveils a captivating universe where NFT utilities ignite boundless avenues of exploration, creativity, and entrepreneurial ventures among the cosmic expanse. This innovative endeavor takes flight, fostering an ecosystem that thrives among the stars.

BITCOIN MINING

Unleash the potential of crypto mining by gaining exclusive access to cutting-edge Bitcoin mining operations. Ride the wave of blockchain's innovation and earn substantial rewards through this revolutionary technology.

TRADE X BOT

Elevate your trading prowess with Trade X's state-of-the-art automated trading platform. Harness advanced algorithms to maximize gains in the dynamic crypto market and achieve trading mastery like never before.

LAUNCHPAD PROFITS

Seize the opportunity for early investments with our curated selection of exclusive project launchpads. Reap the rewards of emerging blockchain ventures and position yourself for substantial profits.

TOKEN PARTNERSHIP

Elevate your portfolio diversification through unique collaborations as an NFT holder. Participate in exclusive token partnerships that not only enhance your holdings but also grant you a stake in groundbreaking projects.

REAL EVENTS

Step into the inner circle with access to exclusive real-life crypto events. Connect with fellow enthusiasts, and stay at the forefront of crypto advancements while forging meaningful connections.

COMMUNITY PROSPERITY

Be an integral part of the community's success as your NFT ownership translates to wallet payouts. Share in the collective achievements and growth, fostering a sense of belonging and financial gains.

LIQUIDITY AMPLIFICATION

Amplify your earnings by providing liquidity to decentralized exchanges through NFTs. Earn a share of trading fees and rewards generated from the liquidity pool, enhancing your crypto gains.

ROYALTIES THAT RESONATE

Enjoy continuous passive income by earning a portion of NFT resale profits. As your NFT gains popularity and value, relish the ongoing financial benefits of your artistic investment.

Within the dynamic landscape of NFT utilities, the Skycraft Miners NFT project stands as a beacon of innovation and limitless potential. Each digital creation becomes a gateway to boundless exploration and connection, redefining conventional notions of creativity and ownership. Driven by an unwavering commitment to innovation, our journey invites all to join in shaping a future where NFTs transcend mere tokens, serving as conduits for untold narratives, self-expression, and collaborative possibilities, uniting creators, collectors, and enthusiasts in a symphony of imagination and potential.

BITCOIN MINING

Leading with a \$0.01 per kWh BTC mining rate.

Bitcoin mining forms the core of our venture, with plans to deploy 1000 S19 PROs post-phase four. Upon phase four's completion, we foresee our mining yielding 5 BTC monthly. Expansion remains ongoing, encompassing diverse cryptocurrency mining.

This approach capitalizes on alt-coin surges. Financial projections factor in compounding phases, annual breakdowns, power costs, upkeep, management fees, Bitcoin halving, and rising mining complexity. New miners are projected to outmatch predecessors, growing in power and efficiency.

Having secured a partnership with a Dubai-based hosting company at a rate of **\$0.01 per kWh**, we are poised to build a thriving mining venture. This collaboration leverages their extensive experience in this field, ensuring seamless handling of all necessary operations. Their established track record enhances the prospects of our successful mining enterprise

Team Expenses

In November 2021, Bitcoin hit an all-time high at \$69,000, but now it's down by over 75% at \$17,000. High Bitcoin prices boost mining rewards while costs remain steady. This leads to reduced profits compared to mining during price lows due to intense competition. Power costs also impact profitability, surged by global events like the pandemic, deterring potential miners.

An opportunity emerges now: Bitcoin's price is low, with our \$0.01/kWh power deal. Starting a scalable Proof of Work mining operation offers advantages: lower investment, unbeatable power rates, optimal equipment prices, and potential gains as the bullish cycle returns. Seize the moment for a strategic move and benefit from this opportune season.

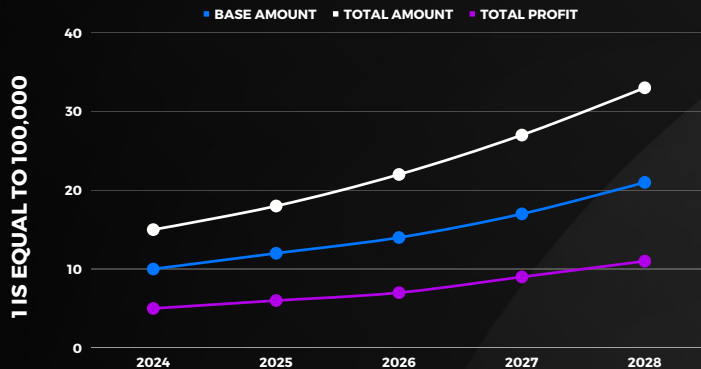

Year	Avg Btc Cost	BTC Mined	Revenue	Net Profit
1	\$35,000	180	\$6,300,000	\$4,095,000
2	\$55,000	180	\$9,900,000	\$6,435,000
3	\$75,000	180	\$13,500,000	\$8,775,000
4	\$97,000	180	\$17,460,000	\$11,349,000
5	\$125,000	180	\$22,500,000	\$14,625,000

As evident from the table above, we've taken great care to develop a comprehensive and thorough 5-year Bitcoin mining revenue generation plan. This meticulously crafted strategy provides a clear outline of our anticipated BTC mined, total revenue, and net profits throughout this substantial time frame.

TRADE X

Trade X stands as an automated trading bot program, meticulously crafted by a strategic partner company of Skycraft. Its unique design prioritizes achieving maximum profits while maintaining low risks. Renowned as the world's most efficient trading program, Trade X emerges as an exemplary revenue stream for Skycraft, holding immense promise for sustained growth.

Yearly Return
+54%

Holders Share
50%

Amount Reinvested
40%

Over the past year, our team has been diligently developing the Trade X automated trading program. Remarkably, even in the midst of a bear market, the software has consistently delivered impressive results, yielding an average net profit of 4.5% each month. This translates to a remarkable annual total of 54%.

Central to our project's ethos is the provision for our NFT holders to receive an extraordinary 50% portion of the overall profits accrued from our trading endeavors. This strategic design underlines our unwavering dedication to ensuring enduring, substantial returns for both our esteemed holders and investors over the long term.

We're committed to reinforcing growth by reinvesting 40% of profits into the base, driving steady expansion and heightened returns for holders. Additionally, allocating 10% for management and development guarantees ongoing project advancement and innovation.

Year	Base Fund	Returns % P.A.	Final Amount	Profit
1	1,000,000	54	1,540,000	540,000
2	1,216,000	54	1,872,640	656,640
3	1,478,656	54	2,277,130	798,474
4	1,798,045	54	2,768,989	970,944
5	2,186,422	54	3,367,089	1,180,667

In the provided chart, we've detailed a 5-year profit plan with a strong 54% annual return potential for our holders. Our focus is clear: sustain profitability while managing risks through optimized investments and diversification. Our core strength is the robust 54% annual return rate, rooted in careful financial planning. This underscores our commitment to exceeding market norms for returns, offering substantial value to holders. Our approach maintains equilibrium by aiming for higher profits while prudently mitigating risks. We rigorously evaluate investments, emphasizing informed decisions that protect stakeholders' interests.

Diversification is pivotal. We allocate investments across segments to disperse risks and maximize returns, adapting resiliently to market changes. We vow to innovate, upholding our promise of holder prosperity. By simultaneously pursuing growth and security, we set a new standard for sustainable investing. Our aim is enduring value for our stakeholder community.

In-House Launchpad

We are strategically poised to initiate five pivotal projects across distinct industries, a move designed to not only bolster additional revenue streams for our esteemed stakeholders and investors but also to underscore our commitment to innovation and meticulous planning. These projects, characterized by their ingenuity and substantial profitability, are a direct result of our well-defined operational framework and strategic foresight.

VISION

Each project will be associated with an NFT venture to raise additional funds for expanding project scope. Initial investors will receive a percentage of profits from all these projects.

PROJECT 1

PHYSICAL GOLD

Gold: Safeguarding Wealth Through Timeless Resilience

Gold holds a position of unparalleled esteem as a universally recognized asset, renowned for its ability to counteract the impacts of inflation and deflation. Within this context, Skycraft has established a promising collaboration with a company that boasts direct access to ethically sourced gold bullion derived from diverse global mining operations. This strategic partnership extends further to encompass affiliations with reputable refineries. As a result, Skycraft is uniquely positioned to engage in the acquisition and subsequent distribution of physical gold, solidifying our presence in this valuable market.

NFT projects can amplify their potential by venturing into gold mining investment. With an approximate 37% annual return over five years, this strategy combines the innovation of NFTs with the stability of gold. This fusion offers a dual advantage: tapping into NFT profitability while benefiting from gold's enduring value. The result is a dynamic pathway towards financial growth and success within a rapidly evolving investment landscape.

PROJECT 2

E-SPORTS

Esports, short for electronic sports, refers to competitive video gaming. Professional players and teams compete in various video games, often in organized leagues and tournaments, attracting huge audiences, and sponsorships, and generating substantial revenue through streaming, ticket sales, and merchandise.

Strategic approach

The earning model of this project revolves around a multi-pronged approach. It includes revenue generation from user subscriptions, in-platform purchases of valuable NFTs, partnerships with global esports events, and strategic collaborations with blockchain and DeFi projects.

These diverse streams work together to create a sustainable income source while leveraging the unique value proposition of NFT-backed esports.

Establishing the Foundation

- Reveal the NFT esports platform with unique collectibles, engaging users.
- Host early events, nurturing community and competition.
- Build alliances, attract adoption through proactive marketing.

Expansion and Engagement

- Embed NFT rewards in games, boosting engagement.
- Scale tournaments for visibility and credibility.
- Cultivate lively community with events, rewards, and social campaigns

Monetization and Scale

- Subscription plans with NFTs for sustainable earnings.
- Global outreach with tailored content.
- Blockchain partnerships for NFT investment opportunities.

PROJECT 3

MEDICINAL FARMING

Medicinal farming is poised to emerge as a lucrative avenue, with the potential to generate millions of dollars in annual profits. This is attributed to the rising demand for natural healthcare products, coupled with advancements in sustainable farming practices and technological innovations. As the world embraces holistic health solutions, the cultivation of high-value medicinal plants and botanicals opens doors for entrepreneurs to tap into a burgeoning market.

By focusing on cultivating a diverse range of medicinal plants, herbs, and botanicals, entrepreneurs can harness their therapeutic properties for various applications. These include pharmaceuticals, supplements, herbal remedies, and wellness products. The synergy between traditional knowledge and modern scientific research enhances the value of these crops. With a solid market strategy, effective supply chain management, and an emphasis on quality, medicinal farming has the potential to yield substantial profits, making millions of dollars annually. This not only offers financial rewards but also contributes to the larger goal of promoting health and well-being in society.

In the current global landscape, the interest in natural remedies and holistic wellness is driving the demand for medicinal plants and botanicals. This presents a prime opportunity for a tech-enabled brand to flourish. By harnessing precision agriculture, supply chain transparency, and e-commerce platforms, the brand can optimize cultivation conditions, build trust with consumers, and reach a global audience directly. Mobile apps can further educate users and facilitate seamless purchases, while social media collaborations amplify the brand's reach. With a strategic focus on global expansion and innovative technologies like blockchain and NFTs, this brand can tap into the surging demand, potentially realizing millions in profits while meeting the evolving preferences of health-conscious consumers worldwide.

GLOBAL DEMAND

\$ 115 Billion

The global market for medicinal farming is substantial and continues to expand. The global herbal medicine market was estimated to be around \$115 billion, and it was projected to grow at a compound annual growth rate (CAGR) of over 7% from 2023 to 2028.

INDIA AS A KEY PLAYER

\$ 7 Billion

India exports a diverse range of medicinal and herbal products, including raw herbs, herbal extracts, essential oils, and Ayurvedic medicines, to various countries. The exact total demand for products from India in the medicinal farming sector can vary annually and depend on factors such as market trends, regulatory changes, and global health and wellness preferences.

OUR INITIAL INVESTMENT

\$ 1 Million

We are excited to announce our strategic investment of \$1 million in the Indian medicinal farming market. With the increasing global demand for Indian raw materials and our expansion plans, we project a remarkable growth potential of 100x over the next five years. This venture capitalizes on the burgeoning market appetite for natural remedies and positions us at the forefront of a thriving industry.

PROJECT 4

INFRA DEVELOPMENT

BUILDING TOMORROW, SUSTAINING PROSPERITY TODAY.

- **Transformative Infrastructure:** Reshaping urban spaces with modern amenities.
- **Passive Earnings:** NFT holders receive a share of project revenue, ensuring ongoing passive income.
- **Community-Centric Growth:** Uplifting both structures and livelihoods.
- **Asset Value Growth:** As infrastructure develops, NFT assets may appreciate in value.
- **Governance Control:** NFT holders influence project decisions, affecting revenue potential.

REVENUE SOURCES

1. Rental Income:

Leasing or renting out developed properties, commercial spaces, or housing units within the infrastructure generates a steady stream of rental income.

2. Usage Fees

Charging fees for the use of facilities and services within the infrastructure, such as tolls for roadways or access fees for public amenities.

3. Asset Sales

Selling developed properties, real estate, or commercial spaces within the infrastructure to interested buyers, providing a lump-sum revenue injection.

4. Advertising

Partnering with advertisers or sponsors to promote their brands or products within the infrastructure, generating revenue through advertising space and sponsorship deals.

SKYCRAFT Ecosystem Application

- Multi-Wallet Integration:** Seamlessly manage various cryptocurrencies in one place.
- Real-Time Market Data:** Stay informed with live cryptocurrency prices and trends.
- Secure Trading:** Ensure user funds and data safety during transactions.
- Token Management:** Effortlessly handle a range of tokens, including NFTs.
- Liquidity Pools:** Access DeFi protocols for liquidity provision and rewards.
- Advanced Analytics:** Gain insights into portfolio performance and trading history.
- and much more**

PHASE-WISE PROFIT PROJECTION

App Launch and Adoption

- **User Acquisition:** Generate revenue by offering premium features, advanced analytics, or ad-free experiences through subscription models to attract early users.
- **Transaction Fees:** Implement nominal transaction fees for cryptocurrency trades and transfers, generating a steady income stream from user activity.

Expansion and Monetization

- **Marketplace Fees:** Introduce a marketplace for token sales, NFT trading, or token swaps, earning a percentage of each transaction as fees.
- **Liquidity Pool Fees:** Facilitate De-Fi participation by charging a portion of users' rewards for providing liquidity to decentralized pools.

Advanced Features and Services

- **Premium Subscriptions:** Offer tiered subscription plans with exclusive benefits, such as enhanced analytics, access to premium content, or priority customer support.
- **Educational Resources:** Monetize educational content, webinars, or tutorials for users looking to expand their cryptocurrency knowledge and trading skills.

Ecosystem Growth and Partnerships

- **Strategic Partnerships:** Collaborate with DeFi projects, exchanges, or blockchain platforms to earn referral fees or a percentage of transactions routed through the app.
- **Advertising Opportunities:** Introduce targeted advertising options for blockchain projects or crypto-related services, creating an additional revenue stream.

Advanced Research Approach

Our app's supremacy is rooted in thorough research, aligning features with user needs, and monitoring market trends. Our grasp of emerging tech ensures ongoing innovation, while user feedback ensures seamless experiences.

Pioneering Technological Edge

Our app stands out through innovation and strategic partnerships. Grasping user preferences and integrating emerging tech keeps us ahead. Collaborations offer unique insights, enriching cryptocurrency exploration.

Dynamic User-Centric Experience

Our uniqueness is in blending innovation and personalization. Understanding emerging crypto and blockchain tech keeps us agile. Collaborations empower users with exclusive insights, elevating their cryptocurrency journey.

Elevated Value Proposition

Our app excels with research, market insights, and a user-first approach. Understanding the dynamic landscape ensures innovation. Integrations and partnerships amplify the experience, making our app invaluable in the cryptocurrency realm.

CRYPTO GLOBAL

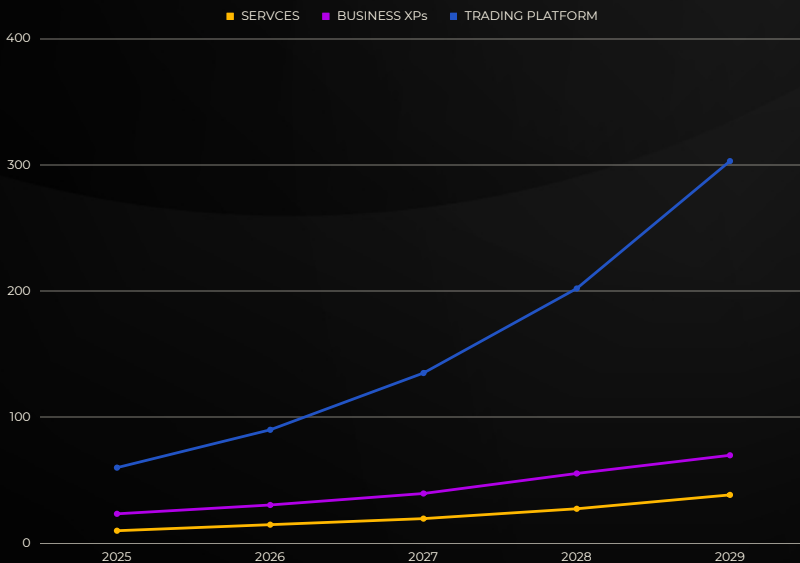

Cryptocurrency's impressive 15% annual growth reflects its escalating global influence. Our strategic utilization of cutting-edge technology positions us to transform this industry expansion into substantial year-on-year profits, ensuring a prosperous journey ahead.

Our comprehensive trading platform empowers users to seamlessly buy, sell, and utilize cryptocurrencies and tokens. With real-time data, intuitive interfaces, and a secure environment, we ensure that trading and engaging with digital assets is accessible, efficient, and secure.

#SKYCRAFT TOKEN

CRAFTING STELLAR LEGACIES

Skycraft Token is a versatile digital asset with exclusive access benefits, enabling cost savings and offering profitable trading opportunities. It combines enhanced security and convenience, empowering users with innovative rewards and diverse utility, redefining the way you engage with services and products.

Why Skycraft ?

Skycraft Token offers unparalleled advantages, serving as a gateway to thousands of services and products at exclusive rates. Its versatility extends to generating profits through trading. With seamless accessibility and potential for substantial savings, Skycraft Token redefines utility, presenting a lucrative opportunity for users to both economize and prosper.

- ✓ Profit Opportunities
- ✓ Trading Benefits
- ✓ Value Maximization
- ✓ Diverse Portfolio
- ✓ Exclusive Access
- ✓ Cost Savings
- ✓ Versatile Utility
- ✓ Tailored Offers
- ✓ Enhanced Security
- ✓ Convenient Transactions
- ✓ Innovative Rewards
- ✓ Protected Identity

SUPPLY OVERVIEW

At the outset, we are excited to introduce 1,000,000 Skycraft tokens, each meticulously designed with a direct, tangible use case that promises unprecedented benefits for our users. These tokens represent not just a digital asset, but a gateway to a world of opportunities within our ecosystem.

These Skycraft tokens serve as more than mere digital assets; they are the foundation of a thriving and dynamic ecosystem. With a commitment to innovation and utility, they unlock a spectrum of exclusive advantages, making Skycraft a beacon of opportunity and growth in the crypto world.

www.skycraftminers.com

SKYCRAFT

MARKETPLACE

Skycraft NFT Marketplace is poised to redefine the NFT experience. With a commitment to user-centricity, it offers a seamless interface and unparalleled curation, showcasing a diverse array of NFTs, from art to utility-driven assets. Skycraft stands out with its dedication to innovation and a relentless pursuit of quality, promising a marketplace where both creators and collectors thrive in a dynamic ecosystem.

● Enhanced Curation

Skycraft NFT Marketplace employs cutting-edge AI algorithms to curate and personalize content for users, ensuring they discover NFTs that align with their interests and preferences.

● Utility Integration

Unlike many other NFT platforms, Skycraft's marketplace offers NFTs with real-world utility, such as access to exclusive events, investment opportunities, and more, creating added value for users.

● Community-Driven

Skycraft fosters a vibrant, engaged community of creators, collectors, and enthusiasts, providing a collaborative environment for users to share, create, and innovate within the NFT ecosystem.

Secondary Markets

OPENSEA

OpenSea, a prominent NFT marketplace, features diverse digital assets like art, collectibles, and virtual real estate.

RARIBLE

Rarible: A decentralized NFT platform enabling creators to mint and trade their tokens, featuring a user-friendly NFT marketplace.

SUPER RARE

SuperRare excels in premium digital art NFTs, renowned for exhibiting exceptional and valuable digital masterpieces.

NIFTY GATEWAY

Nifty Gateway, renowned for curated NFT drops by artists and brands, offers open and limited edition collections.

Our NFTs will be available on 4 Secondary Marketplaces other than our own website. Royalties will be set to 5% on all secondary market trades. No fee will be charged for NFT transfers Between wallets.

Skycraft was founded by a core team of four members, supported by seven talented designers, developers, and financial analysts. Together, we are dedicated to building the ultimate crypto ecosystem, leveraging our expertise to redefine the industry. Our commitment to innovation and user-centric design will ensure Skycraft stands as a pioneer in the crypto space.

MINING LOCATION

DUBAI MINING: OUR POWERHOUSE

Skycraft is proud to announce our strategic partnership with a renowned company based in Dubai for our Bitcoin mining operations. This collaboration is a crucial step towards enhancing our mining capabilities and ensuring long-term success in the crypto mining sector.

COST EFFICIENCY

Our partnership with a Dubai-based company ensures remarkable cost efficiency due to their access to incredibly low electricity rates. This advantage plays a pivotal role in drastically reducing operational expenses, ultimately leading to amplified profitability.

OPERATIONAL EXPERTISE

Drawing on their industry expertise, our Dubai partner handles all aspects of our mining farm, from initial setup to ongoing maintenance, ensuring optimal performance and operational excellence.

At Skycraft, our pursuit of greatness extends to strategic collaborations with industry titans. Our alliance with a prestigious Dubai-based company is poised to redefine the landscape of Bitcoin mining projects. This partnership is the cornerstone of our ambition to create the world's premier project, ensuring our holders reap unparalleled profits. By harnessing their unmatched expertise and our unwavering commitment to excellence, we're paving the way for the most profitable and esteemed project in the cryptocurrency sphere.

IMPORTANT INFORMATION

Investing in NFTs, cryptocurrencies, and associated financial instruments involves substantial inherent risks and uncertainties. The market prices of NFTs and cryptocurrencies exhibit significant volatility and can experience rapid fluctuations. Prior to making any investment decisions, it is imperative to comprehensively understand these risks and meticulously review all pertinent information, including the project's white paper and associated documentation.

It is important to emphasize that the information provided herein is solely intended for informational purposes and should not be construed as financial, tax, legal, or accounting advice. No representations or warranties, either explicit or implied, are made concerning the accuracy or completeness of this information, and it is subject to modification without prior notice. We strongly urge prospective investors to seek the counsel of their own qualified professional advisors before embarking on any investment ventures.
